
Movies data analysis

Presented by: Khansa Gafer .

Goal

Making Data Visualization using Power BI

build a visual dashboard

understanding the Movies Trend

the top 10 movies by Genre

the movie Rating ?

How to build dashboard and telling story?

Data Visualization

Data transformation

Data exploration

Data exploration

this is initial step I undersood the nature of the data and the relationships between variables

Data transformation

In this proccess I **converted ,cleaned ,strucured data in to usable format** that can be analyzed to support decision making processes

Data Visualization

This is the last step of the representation of data through use of common graphics,I used,**Stacked bar char ,Slicer, Map and Area chart** to represent Trend and top movies,and country
